Education

Vellore Institute of Technology, Chennai

- Bachelor of Technology (B.Tech) in Computer Science and Engineering | CGPA: **8.51**

2021 - 2025

(expected)

South City International School, Kolkata

- CISCE (Class XII), Aggregate: 88.25%

2020 - 2021

South City International School, Kolkata

- CISCE (Class X), Aggregate: 91.4%

2018 - 2019

Skills

Java | C++ | C | Python | HTML | CSS | JavaScript | ReactJS | NextJS | Blockchain | Solidity | MySQL | Machine Learning | Git

Projects

Spotify Clone

Sep '23

Full-stack music streaming and upload web app using TypeScript, Next 13.4, React, Tailwind CSS, Supabase and PostgreSQL

- Developed a responsive music streaming platform with advanced playback controls, supporting instantaneous music uploads and handling up to **500 sample tracks** in a local testing environment.
- Integrated Stripe for premium subscriptions, simulated secure payments and scalability for **1,000 users**.

Encryptify

Mar '24

Image Encryption and Decryption App built with AES, RSA and SHA-256 in Python

- Implemented **AES**, **RSA**, and **SHA-256** for strong security, speed, and integrity.
- Designed a Python interface for encryption, decryption, and key management, tested on files up to **10 MB**.

BlockTrackr

Apr '24

Blockchain based E-Attendance System powered by Python, HTML, CSS and Smart Contracts using Solidity

- Built a decentralized E-Attendance system with Solidity, managing **50+ test records** on a local blockchain.
- Achieved **100% reliability** in real-time attendance updates during testing, enhancing transparency and reducing fraud risks.

Traffic Management and Speed Estimation with YOLOv8

Jun '24

Traffic Management and Speed Estimation using Video Object Detection with YOLOv8.

- Proposed a traffic management system using **YOLOv8** for real-time vehicle detection and speed estimation in a team.
- Achieved accuracy above **90%** in detecting vehicles across **1,000+ frames**, offering high speed and robustness.

Online Discourse Analysis for Depression Detection

Nov '24

Detecting Depression in Online Discourse using advanced Machine Learning models

- Compared **6** machine learning models (Naive Bayes, LSTM, GRU, Bidirectional LSTM, Conv1D, TF Hub USE).
- Attained **90%** (Bidirectional LSTM) and **94%** (TF Hub USE) accuracies for early depression detection.

Experience and Positions of Responsibility

Skyscanner(Forage) | Software Engineering Simulation

Jan '24 - Feb '23

- Built React web and mobile flight itinerary interfaces, completing **4 core** platform features within a simulated agile sprint.
- Implemented a microservice, improving simulated platform responsiveness by **10%** and demonstrating back-end skills.

CodeChef Club, VIT Chennai | Head of Management and Outreach Team

Dec '22 - Aug '23

- Collaborated with a team to organize **4 events**, encompassing tech talks, hackathons, and coding competitions.
- Coordinated event promotion and logistics, improving student participation and engagement in technical activities.

Quiz Club, VIT Chennai | Coordinator

Jan '22 - Oct '22

- Organized 'Mastermind Quiz' during TechnoVIT, 2022, involving **25 teams** from various colleges.

Certifications

Spoken Tutorial - Java Training Completion Certification

Aug '24

- Successfully completed a Java test organized by VIT University and the Spoken Tutorial Project, IIT Bombay, demonstrating proficiency in Java programming.

Google Cloud Digital Leader

Jul '24

- Acquired insights into the transformative role of cloud technologies in shaping the modern digital landscape.

AWS Certified Cloud Practitioner

Dec '23

- Gained hands-on experience with AWS features like S3, EC2, IAM and Lambda.

Introduction to Packet Tracer from Cisco

Jun '23

- Learned fundamental features of Cisco Packet Tracer and how to simulate and understand network operations.
